IVORY COAST

THE ECONOMIC HUB OF WEST AFRICA

Ivory Coast, located in West Africa with a population of over 32,1 million (2025), is politically stable, economically vibrant, and emerging as a regional hub for healthcare development. The medical, pharmaceutical, and healthcare sectors are key drivers of progress, supported by investments in infrastructure, modernization, and health system reforms.

As the country expands universal health coverage and improves public health services, there is growing demand for modern medical equipment, diagnostic devices, hospital infrastructure, and digital health solutions to meet both urban and rural needs.

Urbanization and a rising middle class are driving demand for specialized medical services, including maternity care, dialysis, and dentistry. Private clinics and healthcare providers are investing in advanced technologies and management systems to meet international standards.

Government initiatives focusing on healthcare access, workforce training, and pharmaceutical production are creating opportunities in medical education, biomedical technologies, and supply chain managementóstrengthening health systems and ensuring long-term resilience.

The Modern PORT OF ABIDJAN

One of the largest on the West African coast, serves landlocked countries and facilitates regional trade, **making Ivory Coast a key player in regional commerce and logistics.**

REASONS FOR IMPORTING MEDICAL,HEALTHCARE &PHARMACY TECHNOLOGIES

1 Strengthening Healthcare Infrastructure

Ivory Coast is investing heavily in upgrading hospitals, clinics, and laboratories. There is rising demand for diagnostic devices, imaging systems, hospital furniture, and digital health solutions to support both urban and rural healthcare needs.

2 Expanding Private and Specialized Healthcare

Private clinics and specialized centers in areas like maternity, dialysis, and dentistry are on the rise. These facilities require imported medical devices, treatment equipment, and digital patient management tools to meet international standards.

3 Improving Access to Quality Medicines

The country is seeking pharmaceutical production equipment, cold chain systems, and automated packaging technologies to ensure safe, efficient, and large-scale distribution of essential medicines and vaccines.

4 Training and Employment for Health Professionals

There is growing support for vocational training in nursing, pharmacy, and biomedical technology. This drives demand for simulation tools, laboratory kits, and educational medical equipment to strengthen local capacity and create new job opportunities.

3rd
INTERNATIONAL
MEDICAL, HEALTHCARE& PHARMACY EXHIBITION

Medical Expo Abidjan is a strategic meeting point for the fast-growing healthcare and medical sectors in West Africa, bringing together leading brands, healthcare institutions, distributors, and key decision-makers. Supported by relevant ministries and sector stakeholders, the exhibition offers a powerful platform to explore new business opportunities through professional conferences, targeted B2B meetings, and a dedicated Hosted Buyer Program connecting exhibitors with qualified buyers from across the region.

Join Us at **Medical Expo 2027!**

In 2026, we set the standard.
In 2027, we raise the bar.

Don't just watch,
take your place.

160
Global Brand

More than 150 brands from across the world created a dynamic, high-energy space where innovation and business came together; opening doors, closing deals.

600+
Hosted Buyer Meetings & B2B

Our Hosted Buyer Program welcomed delegations from Burkina Faso, Mali, Senegal, Gabon, Ghana, Benin, Togo, and Guinea; turning the expo into a true Pan-African business platform with direct buyer-exhibitor connections

5200+
Professional Visitors

From manufacturers to distributors, healthcare providers to policymakers; every visitor was industry-relevant, decision-making, and ready to do business.

15
Participating Countries

An international platform with exhibitors and partners from Algeria, China, France, India, Italy, Turkey, Saudi Arabia, Nigeria, Morocco, Egypt, UAE, Austria, and more.

25+
Conferences & Panels

We hosted over 25 sessions where leading experts tackled critical healthcare topics ó from medical innovation to public health and sustainable care. The knowledge exchange was continuous.

1000+
Product Groups

With over 1,000 product categories, the exhibition was the region's most complete sourcing destination ó matching sellers with buyers and turning interest into action.
